Lowell - Johnsons Crossroads Loop

Length: 27.4 Miles
Climbing: 2,100 Ft.

Rating: 2.4
Climbing Per Mile: 76.6

There is no real preference in riding direction, though counterclockwise may have some steeper gradients. With the exception of 3.9 miles of State 3, the route is on single lane roads.

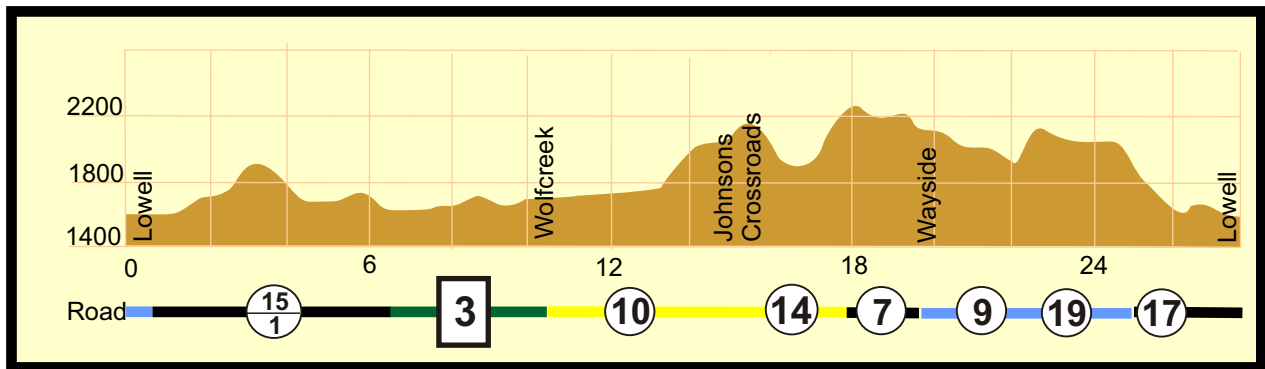

Start: A convenient place to start is the church in Lowell near the intersection of 15 and 15/2. From route 3 in Pence Springs, go 2.6 miles on county route 15 to the church.

About a mile up Cty. 10 from Wolfcreek there is a gravel area by the bridge that makes a good starting place also.
